- *Note 1:* Basic earnings per share for the period under review was calculated on the basis of the weighted average number of ordinary share capital, namely the total share capital at the end of the period after deduction of 9,125,893 restricted shares remaining in lock-up. Basic earnings per share for 2010 and 2009 have been restated to reflect the implementation of the 2010 profit distribution and capitalisation of capital reserve plans.
- *Note 2:* As certain Subject Share quotas under the Share Incentive Scheme of the Company have given rise to 6,874,194, 61,864,408 and 69,737,523 potentially dilutive ordinary shares for the reporting period, 2010 and 2009, respectively, therefore diluted earnings per share has been calculated on the basis of basic earnings per share taking into account the said factors, and the diluted earnings per share for 2010 and 2009 have been restated to reflect the implementation of the 2010 profit distribution and capitalisation of capital reserve plans of the Company.
- *Note 3:* Net cash flow from operating activities per share and net asset per share attributable to shareholders of the listed company for 2011 were calculated on the basis of the number of shares representing the total share capital at the end of the period after deduction of 9,125,893 restricted shares remaining in lock-up under the share incentive plan. The corresponding amounts for 2010 and 2009 have been restated to reflect the implementation of the 2010 profit distribution and capitalisation of capital reserve plans of the Company.

#### 6. REPORT OF THE BOARD OF DIRECTORS

#### 6.1 Discussion and Analysis of overall operations during the reporting period

#### Overview of the PRC telecommunications industry

During 2011, the domestic telecommunications industry continued to vigorously advance the construction of 3G and broadband network infrastructure, with a primary focus on accelerating the transformation and upgrade of the industry. Strong efforts were made in the development of the Mobile Internet and value-added telecommunications businesses, as the profile of market competition continued to be optimized and the industry in general maintained stable and sound operation. According to statistics published by the Ministry of Industry and Information Technology, revenue for the domestic telecommunications sector amounted to RMB901.15 billion for the first eleven months of 2011, representing a year-on-year growth of 9.6%.

#### Overview of the global telecommunications industry

During the 2011, investment of the global telecommunications industry in equipment varied from region to region. Emerging nations in the Asia Pacific, CIS and Latin America reported faster growth in investment, while Europe and North America continued to command a larger share of global investments in terms of absolute value. The focus of investment shifted to the construction and optimization of mobile broadband and wireline broadband networks, as 3G network deployment was reaching greater depths while the commercial deployment of 4G was also unfolding. As government-led broadband strategies continued to advance, there was stable growth in the capital expenditure of carriers.

As network traffic grew rapidly in line with the development of the Mobile Internet and the increasingly popular use of smart phone terminals, carriers sought to improve user experience through the optimisation, capacity expansion and upgrade of 2G/3G networks as well as the deployment of 4G networks. Nations around the world were speeding up the implementation of their national broadband strategies to meet public demand for informatisation and high bandwidth. In tandem with the development of mobile broadband and its applications, sales of smart phone terminals were growing at a faster rate to account for an increasing proportion among all terminal products.

#### Operating Results of the Group for 2011

In 2011, the Group endeavoured to enhance its market position by leveraging its inherent competitive strengths and taking advantage of changes in the competitive landscape. We reported moderately fast growth in revenue from both the domestic market and the international market. Revenue from carriers' networks further increased, while revenue from terminals grew at an accelerated pace and moderately fast growth was noted for telecommunication software systems, services and other products. Nonetheless, gross profit margin and net profit conceded under the impact of the slowdown in global economic growth, adjustments to the monetary policy of the PRC government and the Group's own strategy for expanding market shares. Operating revenue of the Group for 2011 amounted to RMB86.254 billion, representing a year-on-year growth of 23.39%. Net profit attributable to shareholders of parent company decreased 36.62% to RMB2.060 billion. Basic earnings per share amounted to RMB0.61.

#### By market

#### The domestic market

During the reporting period, the Group reported operating revenue of RMB39.496 billion from the domestic market, accounting for 45.79% of the Group overall operating revenue and representing a year-on-year growth of 22.67%. The national "12th Five Year Plan" has provided driving force for the further development of the domestic telecommunications industry. Capitalizing on the opportunity of large-scale 3G development in China and national broadband construction, the Group achieved moderately rapid growth in its operating revenue from the domestic market through efforts to support carriers in the improvement of 3G network coverage, deploy broadband access networks and ancillary transmission networks and enhance product competitiveness.

#### The international market

During the reporting period, the Group reported operating revenue of RMB46.758 billion from the overseas market, accounting for 54.21% of the Group overall operating revenue and representing a year-on-year growth of 24.00%. Competition was intense in the international telecommunications industry, with increasing conflicts in intellectual property rights. The Group endeavoured to enhance its market position by taking advantage of changes in the competitive landscape, employing various means in vigorous international market development. While reinforcing our position in emerging markets, we continued to make breakthroughs with mainstream global carriers through cooperation with these operators on different products. As a result of these efforts, we sustained relatively fast year-on-year growth in the Group's revenue from international business.

#### By product

For the reporting period, the Group reported operating revenue of RMB46.522 billion for carriers' networks, representing year-on-year growth of 10.83%. Operating revenue for terminal products amounted to RMB26.933 billion, representing year-on-year growth of 52.63%. Operating revenue for telecommunication software systems, services and other products amounted to RMB12.799 billion, representing year-on-year growth of 24.46%.

#### Carriers' Networks

During the period under review in 2011:

In wireless products, the Group's move to expand its shares in the emerging markets leveraging the strengths of its SDR-based solutions was met with positive response from mainstream global carriers in the form of numerous sub-network construction contracts. All-rounded cooperation with mainstream global carriers has been developed as a result. In the 4G market, while strengthening its cooperation with mainstream global carriers in FDD LTE networks, the Group also seized the opportunity presented by the global deployment of TDD LTE products to develop close partnerships with leading TDD LTE carriers in the PRC, Japan, India and Sweden, etc., where cooperation in large-scale commercial applications or trial commercial applications had been launched.

In connection with wireline products, the Group sustained sound momentum for development with ongoing improvements in product competitiveness and rapid growth in the sales of its access network products in the international market. We completed large-scale sales of our carrying network products in the high-end markets of Europe and the Asia Pacific, complemented by the honours of a second European INFOVISION Award and Frost & Sullivan's "2011 Best Optical Transmission Manufacturer Award."

In connection with service products, the Group responded to demand for customised user requirements by investigating a diverse range of business models, while enhancing its market coverage by developing the industry as well as enterprise segments, complemented by ongoing efforts to improve the competitiveness of its products and solutions.

#### Terminals

In 2011, the Group reported significant development for its terminal products in tandem with the rapid development of the smart phone terminal market, with rapid growth in supply volumes and rising sales revenue as a percentage of overall revenue. Domestic sales of the Group's 3G smart phone terminals of various modes enjoyed rapid growth as China's 3G services entered a stage of large-scale development. In the international market, the Group has developed partnerships with a majority of mainstream global carriers, while large-scale sales of its terminal products were also reported in leading populous countries such as Brazil and India. Sales of the Group's smart phone terminals were also growing rapidly in the markets of developed countries such as Europe and the United States.

#### Telecommunications software systems, services and other products

For the reporting period, the Group's telecommunications software systems, services and other products reported year-on-year growth of 24.46%. The services segment, in particular, achieved rapid revenue growth.

The Group reported RMB86,254.5 million in operating revenue for 2011, a 23.4% growth as compared to last year. Our international business sustained stable growth, with operating revenue growing 24.0% to RMB46,757.9 million. Analysed by product, significant year-on-year growth was reported for carriers' networks, terminals, and telecommunications software systems, services and other products.

The increase in operating revenue from the Group's carriers' networks segment was attributable mainly to growth driven by overseas carriers' networks, with optical communications systems, wireline switch and access systems and CDMA system equipment commanding significant contributions

The increase in operating revenue from the Group's terminal product segment was driven mainly by growth in sales of various terminal products in the domestic as well as overseas markets.

The increase in operating revenue from the Group's telecommunication software systems, services and other products was mainly drive by the increase in sales of fixed terminal products and service income.

#### Cost of sales and gross profit

The following tables set out (1) the cost of sales of the Group and cost of sales as a percentage of total operating revenue and (2) the Group's gross profit and gross profit margin for the periods indicated:

Cost of sales of the Group for 2011 increased 28.7% as compared to last year to RMB62,086.4 million. The Group's overall gross profit margin of 28.0% was 3 percentage point lower as compared to last year, reflecting mainly the decline in the gross profit margin of terminals.

Cost of sales for the Group's carriers' networks amounted to RMB29,802.1 million, an 11.9% increase as compared to last year. Gross profit margin of carriers' networks was 35.9% versus 36.6% for last year. The slight decrease in gross profit margin of carriers' networks mainly reflected the decline of gross profit margin of carriers' networks in the international market offsetting higher gross profit margin for carriers' networks in the domestic market.

Cost of sales for the Group's terminal products amounted to RMB22,886.1 million, increasing by 60.2% as compared to last year. Gross profit margin for the Group's terminal segment was 15.0%, versus 19.0% for last year. The decline in gross profit margin for the terminal segment was attributable mainly to lower gross profit margin for 3G handsets and CDMA handsets in general.

Cost of sales for the Group's telecommunication software systems, services and other products amounted to RMB9,398.2 million, increasing by 28.2% compared to last year. The relevant gross profit margin was 26.6%, compared to 28.7% for last year. The decline in gross profit margin was mainly attributable to lower gross profit margin reported for fixed terminals and video products.

#### Other income and gains

Other income and gains of the Group for 2011 amounted to RMB3,664.4 million, representing a 38.8% growth compared to RMB2,639.8 million for 2010. The increase reflected mainly to the increase in income from software VAT rebate and the recognition of investment gains arising from disposal of equity investments in Nationz Technologies, Inc., an associate.

#### Research and development costs

The Group's research and development costs for 2011 increased by 19.7% to RMB8,492.6 million from RMB7,092.0 million for 2010, but decreased slightly from 10.1% in 2010 to 9.8% as a percentage of operating revenue, reflecting mainly increased investments by the Company in the research and development of wireless products, smart phone terminals and service products.

#### Selling and distribution costs

The Group's selling and distribution costs for 2011 increased by 25.0% to RMB11,112.2 million from RMB8,890.2 million for 2010, or from 12.7% to 12.9% as a percentage of operating revenue, as the Company increased its investments in overseas market development.

#### Administrative expenses

Administrative expenses of the Group for 2011 increased by 3.2% to RMB2,605.6 million, as compared to RMB2,524.0 million for 2010, but decreased from 3.6% to 3.0% as a percentage of operating revenue, reflecting mainly the Company's strengthened efforts in cost control.

#### Other expenses

Other expenses of the Group for 2011 increased by 123.4% to RMB1,684.1 million, as compared to RMB753.8 million for 2010. The increase mainly reflected exchange losses in 2011 as a result of exchange rate volatility.

#### Profit from operating activities

The Group's profit from operating activities for 2011 decreased by 21.9% to RMB3,938.0 million, as compared to RMB5,044.7 million for 2010, while the operating profit margin decreased from 7.2% for 2010 to 4.6% for 2011, primarily as a result of lower gross profit margin for products and higher other expenses.

#### Finance costs

Finance costs of the Group for 2011 increased by 88.6% to RMB1,374.2 million compared to RMB728.6 million for 2010, reflecting mainly the increase in interest expense.

#### Tax

The Group's income tax expense for 2011 was RMB392.0 million, which was 55.6% lower as compared to RMB883.7 million for 2010, with a lower effective tax rate of 14.9% for 2011, as compared to 20.3% for 2010, mainly as a result of the decrease in total profit and the increase in deferred tax assets arising from deductible losses.

#### Profit attributable to minority interests

The Group's minority interests for 2011 amounted to RMB182.9 million, which was 19.2% lower as compared to RMB226.3 million for 2010. Minority interests increased from 6.5% for 2010 to 8.2% for 2011 as a percentage of net profit before minority interests, reflecting decline in the profit generated by subsidiaries with a higher level of minority interests in a smaller margin than that in the profit generated by the Group.

#### Other comprehensive income

Other comprehensive income of the Group for 2011 decreased by 945.9% to RMB-350.2 million, compared to RMB41.4 million for 2010. The decrease in other comprehensive income mainly reflected changes in the translation differences of financial statements denominated in foreign currencies.

#### Capital management policy

The Group has adopted an appropriate capital management policy, whereby its working capital is mainly financed through its internal resources and bank loans. The Group confirms that sufficient funds are in place to meet its debt repayment obligations as due, capital expenditure and the requirements of normal production operations.

#### Debt -equity ratio and the basis of calculation

Debt-equity ratio is calculated by dividing interest-bearing liabilities by the sum of interestbearing liabilities and equity (including minority interests). The Group's debt-equity ratio for 2011 was 46.3%, increasing by 11.4 percentage points as compared to 34.9% for 2010. The increase was mainly attributable to the increase in the Company's bank loans to replenish working capital.

#### Liquidity and capital resources

In 2011, the Group's development funds were financed mainly by cash generated from its operations and bank loans. The Group's cash requirements related primarily to production and operating activities, repayment of due liabilities, capital expenditure, interest and dividend payments and other contingent cash requirements.

Cash and cash equivalents of the Group as of 31 December 2011 amounted to RMB20,662.1 million.

#### Operating activities

The Group had a net cash outflow from operating activities of RMB3,655.3 million for 2011 compared to RMB227.8 million for 2010, reflecting year-on-year increase of cash outflow for purchases of goods and services by RMB12,510.1 million mainly as a result of expanded sales, increase of cash outflow for payments made to and on behalf of employees by RMB3,740.1 million, increase of tax payment by RMB1,173.9 million, increase of other cash payments relating to operating activities by RMB939.4 million, coupled with increase of cash inflow for sales and the provision of services by approximately RMB13,183.7 million and the increase of cash inflow form tax rebates by approximately RMB1,573.1 million.

#### Investing activities

The net cash outflow from the Group's investment activities for 2011 was RMB3,610.1 million compared to a net cash outflow of RMB3,649.2 million for 2010. Cash outflow comprised mainly cash payment of RMB2,548.5 million for the purchase of property, plant and equipment and cash payment of RMB1,516.5 million for the acquisition of intangible assets and land lease payments.

#### Financing activities

The Group's net cash flow from financing activities for 2011 was RMB13,434.9 million, compared to RMB4,288.5 million for 2010, reflecting mainly the net cash inflow of RMB13,427.8 million in cash as additional bank loans borrowed by the Company to finance its operation.

#### Capital expenditure

The following table sets out the Group's capital expenditure for the periods indicated. The following capital expenditure was funded by long-term bank loans, cash generated from operating activities and government grants.

|   | Unit: RMB | in millions |
|---|-----------|-------------|
| Capital expenditure   | 2011      | 2010        |
| Purchases of fixed assets and increase of construction in progress payments | 2,548.5   | 1,898.0     |

The Group's capital expenditure in 2011 amounting to RMB2,548.5 million was mainly used for the completion of construction work at ZTE Industrial Park, Xi'an Research and Development Centre, equipment installation and the purchase of machinery and equipment.

| Long-term bank loans  | 6,940.7           | 1,719.3 |  |

Credit facilities available to the Group included long-term and short-term bank loans, which were mainly used as working capital. Of the Group's long-term loans, RMB loans and USD loans were subject to floating interest rates. To control the risk associated with RMB appreciation, the Group's borrowings were mainly denominated in US dollars, apart from certain RMB loans.

The relatively significant increase in the Group's bank loans in 2011 was mainly attributable to the borrowing of bank loans to provide additional working capital.

#### 6.6.2 Use of issue proceeds from the bonds cum warrants during the reporting period

The Company issued 40 million bonds cum warrants with a value of RMB4 billion ("Bonds cum Warrants") on 30 January 2008. The net proceeds of RMB3,961,443,520 raised from the issue of the Bonds cum Warrants after deduction of the underwriting commission, sponsorship fees and registration fees were deposited into the designated account of the Company opened with China Development Bank, Shenzhen Branch (account number: 44301560040310230000) on 5 February 2008. A capital verification report in respect thereof was issued by Shenzhen Nanfang-Minhe CPA on 5 February 2008. As at 31 December 2009, the amount invested by the Company in projects utilizing issue proceeds had met the agreed investment amount set out in issued prospectuses (RMB6,550.39 million) and the portion in excess had been funded by the Company's internal resources. For details, please refer to the 2009 Annual Report of the Company and the "Verification report on the Deposit and Application in 2009 of Issue Proceeds of ZTE Corporation" published in newspapers and websites designated for information disclosure on the same date.

The exercise period for "中興 ZXC1" Warrants expired on 12 February 2010. A total of 23,348,590 "中興 ZXC1" Warrants had been exercised, resulting in total proceeds of RMB912 million. In order to increase capital efficiency and to reduce financial expenses, it was considered and approved at the Thirtieth Meeting of the Fourth Session of the Board of Directors of the Company that internal funds previously invested in issue proceed investment projects be replaced with amounts received from the exercise of warrants. For details of the replacement, please refer to the "Announcement of ZTE Corporation on the Replacement of Internal Funds Previously Invested in Issue Proceed Investment Projects with Proceeds from the Issue of Warrants" published in newspapers and websites designated for information disclosure dated 25 March 2010.

#### 6.9.1 Proposal for profit distribution for 2011

Net profit of the Company for the year 2011 calculated in accordance with PRC ASBEs amounted to approximately RMB503,793,000. Together with undistributed profit of approximately RMB1,542,299,000 carried forward at the beginning of the year and after deducting statutory surplus reserves of approximately RMB50,379,000 and profit available for distribution to shareholders amounted to approximately RMB1,995,713,000. Profit of the Company for the year 2011 calculated in accordance with HKFRSs amounted to RMB519,110,000. Together with undistributed profit of RMB1,513,698,000 carried forward at the beginning of the year and after deducting statutory surplus reserves of RMB50,379,000, profit available for distribution to shareholders amounted to RMB1,982,429,000.

In accordance with the requirements of the Ministry of Finance of the People's Republic of China and the Articles of Association, profit available for distribution shall be the lower of profit available for distribution as calculated in accordance with PRC ASBEs and that calculated in accordance with HKFRSs. Therefore the amount of profit available for distribution is RMB1,982,429,000. The Board of Directors of the Company has recommended as follows:

Proposed profit distribution for 2011: A cash dividend of RMB2 (including tax) for every 10 shares held will be paid on the basis of the total share capital of the Company of 3,440,078,020 shares as at 31 December 2011 less the number of Subject Shares remaining in lock-up under the Share Incentive Scheme as at the A share record date for the purpose of the 2011 profit distribution (the "Record Date"). As at 28 March 2012, 9,125,893 registered Subject Shares under the Share Incentive Scheme remained in lock-up. In accordance with relevant provisions of the Share Incentive Scheme, restricted shares remaining in lock-up shall not be entitled to the cash dividend. The number of shares entitled to the cash dividend under the 2011 profit distribution proposal will be 3,430,952,127 shares, on which basis the 2011 profit distribution plan will be implemented.

In accordance with the Income Tax Law of the People's Republic of China and its Implementation Regulations, dividend income of individual overseas investors derived from the issue of shares in Hong Kong by non-foreign-invested domestic enterprises is subject to a personal income tax based on "interest, dividend and bonus income" to be withheld and paid by the withholding agent according to the law. The Company will withhold and pay the relevant tax amounts in accordance with the State Administration of Taxation Notice on Matters Concerning the Levy and Administration of Individual Income Tax after the Repeal of Guo Shui Fa [1993] No.045 (Guo Shui Han [2011] No.348) (國家稅務總局關於國稅發[1993]045號文件廢止後有關個人所得稅 徵管問題的通知) (國稅函[2011]348號) and the letter titled "Tax arrangements on dividends paid to Hong Kong residents by Mainland companies" of The Stock Exchange of Hong Kong Limited and other pertinent laws and regulations.

Shareholders are recommended to consult their tax advisers regarding PRC, Hong Kong and other tax implications arising from their ownership and disposal of H Shares of the Company.

#### 6.9.2 Implementation of our cash dividend distribution policy during the reporting period

The 2010 profit distribution and capitalisation of capital reserve plans were implemented on 7 July 2011. For details please refer to the relevant announcement published on 30 June 2011 in newspapers and on websites designated for information disclosure.

Aggregate profit distribution of the Company in the form of cash in the past three years accounted for 73.21% of annual average profit available for distribution in the past three years, in compliance with Article 234 of the Articles of Association which states that "Aggregate profit distribution of the Company in the form of cash in the past three years shall not be less than 30% of the annual average profit available for distribution in the past three years."

*Note 1:* The decrease in operating profit by 43.1% year-on-year was mainly attributable to lower gross profit and increased expenses.

- *Note 2:* The increase in expenses for the period by 473.4% year-on-year was mainly attributable to the increase in exchange losses arising from exchange rate fluctuations for the period and the increase in interest expense.
- *Note 3:* The increase in investment gains by 29% year-on-year was mainly attributable to investment gains arising from the disposal of Nationz Technologies and to the transfer to investment income of gains on changes in fair value of certain derivative investments upon maturity and settlement during the period.
- *Note 4:* The increase in net non-operating income and expenses by 43.1% year-on-year was mainly attributable to the decrease in compensation payments.

#### 6.11 Purchase, sale and redemption of shares

Neither the Company nor any of its subsidiaries purchased, sold or redeemed any listed securities of the Company during the year.

#### 6.12 Business outlook and risk exposures for 2012

#### 6.12.1 Business outlook for 2012

For 2012, we expect opportunities as well as challenges will abound. Meanwhile, the rapid development of the Mobile Internet will drive the large-scale construction of mobile broadband networks, together with ancillary projects for broadband conversion. The constant demand for improvements in network quality will drive the construction of new 2G/3G networks and the modernization and upgrade of existing ones. As the national broadband strategy continued to advance, the wireline market is set to embrace a new cycle of construction, while ICT sectors such as the Internet of Things, Cloud Computing and the Mobile Internet are on the verge of further transformation. Changes are also being seen in the demand of carriers, in relation to which the provision of integration solutions and the forging of long-term, stable partnerships will be crucial. The Group will go through a critical period of starting cooperation with mainstream global carriers, on the back of its globally competitive products and solutions.

In 2012, we will endeavour to strike a balance between development for the future and present conditions. With ongoing commitment to technological innovations for products, we will shift from the supply of products to the provision of integration solutions. We intend to further consolidate our market position by expanding to the government enterprise and service segments and increasing sales to mainstream carriers, as our strategy of focusing on populous nations and mainstream carriers reaches furthers depths. In the meantime, we will enhance execution of our turn to in-depth operation, taking actions to strengthen cash flow management, optimise process regimes and improve operating efficiency.

#### 6.12.2 Risk Exposure

(1) Interest rate risk

As the size of the Group's outstanding loans continued to grow, the total amount of interest payments owed by the Group will vary as a direct result of any fluctuations in the loan interest rates determined by the State and the profitability of the Group will in turn be affected.

#### (2) Foreign exchange risk

The foreign exchange risk of the Group arose mainly from exchange differences in the conversion to RMB (the functional currency of the Group) of sales and purchases settled in currencies other than RMB. Exchange rate volatility has recently escalated under the impact of the international

economic situation. With a strong emphasis on the research of exchange risk management policies, models and strategies, the Group sought to reduce the Company's net exposure to foreign exchange through the adoption of various measures based on the principle of exposure management. Apart from natural hedging, namely the matching of its assets and liabilities denominated in foreign currencies through the choice of different currencies for various businesses and spot currency trading, foreign currency value preservation through financial derivatives was also carried out.

#### (3) Risk associated with intellectual property rights

The Group has always attached great importance to product technology research and development as well as the management of intellectual property rights. We maintain our investment in technology research and development each year at about 10% of our annual sales revenue. Our research and development team is currently supported by over 30,000 employees. While the Group has adopted stringent measures to protect its intellectual property rights, there can be no assurance that there will not be any conflicts in intellectual property rights between the Company and other telecommunications equipment manufacturers, franchisee companies and carriers which partner with the Group.

(4) Credit risk

The Group provides one-stop communications solutions to its customers. With the swift expansion of its business, the Group is serving a large customer base with differing credit status, and its business will inevitably be affected by the varied credit profiles of these customers. The Group has stepped up with the building of its international customer credit rating and management system to mitigate the impact of the aforesaid.

#### (5) Country risk

Given the complex nature of current international economic and political conditions, the Group will continue to be exposed to debtors' risks, trade protection, political risks or even warfare or the succession of political regimes in countries where the Group's projects are operated. As such, a very high level of operational and risk control capabilities is required.

As part of the requirements for its strategic development, the Company entered into the "Sale and Purchase Agreement" with Atlas Services Belgium, a wholly-owned subsidiary of France Telecom, pursuant to which the Company proposed to sell its 51% equity interests in Congo Chine Telecom ("CCT") to Atlas Services Belgium, who would transfer its contractual rights and obligations in accordance with the relevant provisions of the Sale and Purchase Agreement to Pan Communication Investment ("PCI") and Atlas International Investments ("AII"), both of which are wholly-owned subsidiaries of France Telecom. The disposal by the Company of 51% equity interests in CCT held by the Company to PCI and AII was completed on 21 October 2011 (Beijing time) (the "Completion Date"). Upon the Completion Date, the Company was fully discharged from its obligations under a guarantee provided in connection with CCT.

For details, please refer to the announcements of "The Disposal of 51% equity interests in Congo Chine Telecom S.A.R.L." and "Updates on the Disposal of 51% equity interests in Congo Chine Telecom S.A.R.L." published by the Company on 21 October 2011 and 24 October 2011, respectively.

- *Note 1:* Guarantee provided by ZTE HK, a wholly-owned subsidiary of the Company, in the form of a standby letter of credit backed by its bank credit facility, while the bank credit facility of ZTE HK is guaranteed by the Company. In effect of the aforesaid two guarantees, ZTE is the ultimate guarantor and Benin Telecoms is the ultimate party being guaranteed, for an amount of USD3 million. As the gearing ratio of Benin Telecoms was in excess of 70%, the aforesaid guarantee was subject to consideration and approval by the Board of Directors and the general meeting of the Company in accordance with requirements of relevant laws and regulations. These two guarantees have been treated as the same guarantee in the calculation of the sum of the total amount of guarantees approved as at the end of the reporting period and the total balance of actually incurred as at the end the reporting period.
- *Note 2:* The Company provided a guarantee in respect of a bank loan extended to subsidiary Congo-Chine by pledging its 51% equity interests in Congo-Chine. As the gearing ratio of Congo-Chine exceeded 70%, the said guarantee was subject to consideration and approval by the Board of Directors and the general meeting of the Company in accordance with requirements of relevant laws and regulations. On 21 October 2011, the Company sold its 51% equity interests in Congo Chine to Pan Communication Investments and Atlas International Investments (both of which are wholly-owned subsidiaries of France Telecom) and the transfer of equity ownership was completed on the same date. The Company was fully discharged from its obligations under a guarantee provided in connection with Congo Chine.
- *Note 3:* It was respectively approved at the Twenty-fourth and Twenty-fifth Meetings of the Fourth Session of the Board of Directors that the 51% equity interests in Closed Joint-Stock Company CJSC TK Mobile ("CJSC TK Mobile") held by the Company be applied as a security against a bank loan extended to CJSC TK Mobile; a performance guarantee of US\$40 million be provided by the Company for PT. ZTE Indonesia ("ZTE Indonesia"), a wholly-owned subsidiary and application be made by the Company to the relevant bank for the issuance of a letter of performance guarantee with an amount of US\$5 million. Since the gearing ratio of both CJSC TK Mobile and ZTE Indonesia was above 70%, the aforesaid guarantees were approved at the First Extraordinary General Meeting of 2009. As at the date of this report, a US\$5 million guarantee for ZTE Indonesia provided by way of standby letter of credit backed by the Company's banking credit facilities has been executed and the US\$40 million performance guarantee agreement has been signed. The guarantee provided in respect of CJSC TK Mobile's bank loans by way of pledge of equity has yet to be performed as the relevant agreement has yet to be signed.
- *Note 4:* It was approved at the Thirty-first Meeting of the Fourth Session of the Board of Directors that a performance guarantee of not more than US\$30 million be provided by the Company for ZTE Telecom India Private Limited ("ZTE India"), a wholly-owned subsidiary of the Company and application be made by the Indian local bank to the Indian local bank for the issuance of an assurance letter in respect of contract performance to provide guarantee with an amount not exceeding US\$3 million for ZTE India. Since the gearing ratio of ZTE India was above 70%, the aforesaid guarantees were approved at the second extraordinary general meeting of 2009 in accordance with relevant laws and regulations. As at the date of this report, an agreement in respect of the US\$30 million performance guarantee provided by the Company has been signed and INR6,848,100 out of the US\$3 million guarantee provided to ZTE India by way of bank assurance letter has been drawn upon.
- *Note 5:* On 8 July 2011, ZTE (H.K.), a wholly-owned subsidiary of the Company, entered into a USD900 million syndicate loan agreement with 10 international banks including BOCHK. On 8 July 2011, the Company entered into a guarantee agreement with BOCHK to provide guarantee by way of joint liability assurance for an amount of not more than USD900 million in respect of the syndicate loan for ZTE (H.K.). The period of guarantee shall commence on the date on which the guarantee becomes effective and ends on the date which is 60 months after the date of the syndicate loan agreement. The aforesaid guarantee was considered and passed at the Seventeenth Meeting of the Fifth Session of the Board of Directors held on 8 April 2011. As the gearing ratio of ZTE (H.K.) is above 70%, the aforesaid guarantee was submitted to the 2010 Annual General Meeting of the Company held on 17 May 2011 and was considered and approved.
- *Note 6:* It was approved at the Twenty-fourth Meeting of the Fifth Session of the Board of Directors that a guarantee for an amount of not more than EUR10 million in respect of the performance obligations of ZTE France, a wholly-owned subsidiary of the Company under the 2010 SMS Service Execution Contract

and the PATES-NG Execution Contract. As at the date of this report, the guarantee provided by the Company in respect of the performance obligations of ZTE France has yet to be performed as the relevant agreement has yet to be signed.

- *Note 7:* Being the book exchange rate of the Company as at 31 December 2011. Guaranteed amounts denominated in Indian Rupee (INR) are translated at the exchange rate of 1 Indian Rupee to RMB0.1183. Guaranteed amounts denominated in US dollars are translated at the exchange rate of USD1 to RMB6.3009. Guaranteed amounts denominated in Euro dollars are translated at the exchange rate of EUR1 to RMB 8.1625.
- *Note 8:* All third party guarantees of the Company shall be submitted to the Board of Directors for its review and shall require the approval of two-thirds of the members of the Board in order to be effective. If such third party guarantees are otherwise subject to review and approval at the general meeting, then they shall be tabled at the general meeting for approval following approval by the Board of Directors in order to be effective.

Principal terms of a derivative investment contract include but not limited to: the source of funds, parties to the contract, investment shares, investment period, product types, whether litigation is involved, whether there are disguised applications of issue proceeds and review of the investment by competent decision making authorities)

Risk analysis and control measures (including but not limited to market risks, liquidity risks, credit risks, operational risks and legal risks) in respect of derivative positions during the reporting period

- In 2011, the Company conducted derivative investment using its internal funds through either ZTE, ZTE Kangxun or ZTE (H.K.). Contract types included fixed income derivatives and value-protection. Fixed income derivatives had an investment term of 1 year or less. Value protection derivatives included USD forwards, Euro forwards and USD interest rate swap. The investment term of USD forwards and Euro forwards was 1 year or less. The investment term of USD interest rate swaps matched the medium- and long-term debts of ZTE (H.K.).
- The derivative investment quota of 2011 was considered and passed by the Sixteenth meeting of the Fifth session of the Board of Directors and 2010 annual general meeting of the Company. For details, please refer to the "Announcement of Resolutions of the Sixteenth Meeting of the Fifth Session of the Board of Directors" published by the Company on 17 March 2011 and "Announcement on the Resolutions of the 2010 General Meeting" published by the Company on 17 May 2011. The derivative investments made by the Company have not been involved in litigation or disguised applications of issue proceeds.
- Derivative investments conducted by the Company during 2011 included fixed income derivatives and valueprotection. The major risks and control measures are discussed as follows:
- 1. Market risks: For fixed-income derivatives, gains were recognised at maturity. Gains or losses arising from the change in fair value as a result of differences in domestic and overseas forward quotations during the investment period are accounted for as variable gains or losses, which will not affect the ultimate gains of the derivatives. Gains or losses arising from the difference between the agreed exchange rate for transaction and the exchange rate prevailing on the maturity date will be accounted for as gains or losses on revaluation for each accounting period during the effective period of the value-protection derivative investments. Effective gains or losses shall be represented by the accumulative gains or losses on revaluation on the maturity date.

- 2. Liquidity risks: Fixed-income derivative investments are based on the foreign exchange payments for imports. The product did not effectively require the appropriation of available funds and therefore presented minimal liquidity risks. The value-protection derivatives investments of the Company were based on the Company's budget of foreign exchange income and expenditure and these investments matched the Company's actual foreign exchange income and expenditure to ensure sufficient fund for settlement on completion. Therefore, their effect on the Company's current assets was relatively small.
- Credit risks: The counterparties of the derivative 3. investment trades of the Company are banks with sound credit ratings and long-standing business relationships with the Company and therefore the transactions were basically free from performance risks.
- 4. Other risks: Failure of personnel in charge to operate derivative investments in accordance with stipulated procedures or fully understand information regarding derivatives may result in operational risks in actual operation; Obscure terms in the trade contract may result in legal risks.
- Control measures: The Company addressed legal risks 5. by entering into contracts with clear and precise terms with counterparty banks and strictly enforcing its risk management system. The Company has formulated the "Risk Control and Information Disclosure System relating to Investments in Derivatives" that contains specific provisions for the risk control, review procedures and subsequent management of derivative investments, so that derivative investments will be effectively regulated and risks relating to derivative investments will be duly controlled.
- Market prices or fair-value The gains from investments in derivatives during the change of invested derivatives reporting period was recognised by the Company. Total during the reporting period, gains recognised for the reporting period amounted to RMB125.53 million, comprising exchange gains of RMB74.84 million, losses from fair-value change of RMB77.86 million and recognized investment gains of RMB128.55 million. The calculation of the fair value was based on forward exchange rates quoted by Reuters on a balance sheet date in line with the maturity date of the product.
  - including the specific methods, assumptions and parameters adopted in the analysis of the fair values of the derivatives

- Statement on whether the accounting policy and accounting audit principles for derivatives for the reporting period were significantly different from the previous reporting period
- Specific opinion of Independent Non-executive Directors, sponsors or financial advisors on the Company's derivative investments and risk control
- There was no significant change in the Company's accounting policy and accounting audit principles for derivatives for the reporting period as compared to that of the previous reporting period.

#### Independent Non-executive Directors' Opinion:

The Company conducted fixed-income derivative investments based on due USD payables to offset exchange losses arising from the appreciation of RMB by obtaining low-risk fixed income. The Company conducted value protection derivative investments by using financial products to enhance its financial stability, so as to mitigate the impact of exchange-rate volatility on its assets, liabilities and profitability. The Company has conducted stringent internal assessment of its derivative investments made and has established corresponding regulatory mechanisms and dedicated staff. The counterparties with which the Company and its subsidiaries enter into contracts for derivative investments are organisations with sound operations and good credit standing. We are of the view that the derivative investments made by the Company and its subsidiaries are closely related to their day-to-day operational requirements and in compliance with relevant laws and regulations.

#### 2. Details in investment in securities

Nationz Technologies, the company with our equity investment, issued its shares under initial public offering which was listed on the GEM Board of the Shenzhen Stock Exchange on 30 April 2010. On 28 April 2011, Nationz Technologies announced that a period of 12 months had lapsed since its IPO listing. The 54,400,000 shares in Nationz Technologies held by the Company (after the implementation of the 2010 profit distribution and capitalisation of capital reserve plans of Nationz Technologies) would be available for listing and circulation as from 3 May 2011. Pursuant to the "Resolution on the Proposed Disposal of Shares in Nationz Technologies, Inc." passed at the Nineteenth Meeting of the Fifth Session of the Board of Directors of the Company held on 17 May 2011, the disposal of shares in Nationz Technologies at an appropriate timing and a reasonable price range was approved.

As at the end of the reporting period, the Company disposed of a total of 51,274,200 shares in Nationz Technologies. The Company currently holds 3,125,800 shares in Nationz Technologies (accounting for approximately 1.15% of the total share capital of Nationz Technologies), all of which are unrestricted circulating shares. As the Company no longer exercises significant influence over the operating activities of Nationz Technologies, the outstanding unsold shares, previously accounted for as long-term equity, have been reclassified as financial assets held for trading for accounting purposes and investment gains and profit/loss from fair-value changes have been measured at fair value. For details, please refer to the relevant announcements published by the Company on 27 April, 17 May, 30 May, 14 June, 16 June, 23 June, 24 August, 4 November, 11 November, 16 November and 23 November, respectively.

Save as aforesaid, the Group did not hold any equity interests in other listed companies and stakes in financial enterprises such as commercial banks, securities companies, insurances companies, trust companies and future companies, nor did it deal in the shares of other listed companies or was otherwise engaged in securities investment during the reporting period.

## **1 BASIS OF PREPARATION**

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for derivative financial instruments and certain equity investments, which have been measured at fair value. These financial statements are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand except when otherwise indicated.

## **Basis of consolidation**

The consolidated financial statements include the financial statements of the Group for the year ended 31 December 2011. The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. All intra-group balances, transactions, unrealised gains and losses resulting from intra-group transactions and dividends are eliminated on consolidation in full.

Total comprehensive income within a subsidiary is attributed to the non-controlling interest even if that results in a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate.

## 2 CHANGES IN ACCOUNTING POLICY AND DISCLOSURES

The Group has adopted the following new and revised HKFRSs for the first time for the current year's financial statements.

| HKFRS 1 Amendment           | Amendments to HKFRS 1 First-time Adoption of Hong           |

|                             | Minimum Funding Requirement                                 |
| HK(IFRIC)-Int 19            | Extinguishing Financial Liabilities with Equity Instruments |
| Improvements to HKFRSs 2010 | Amendments to a number of HKFRSs issued in May 2010         |
|                             |   |

Other than as further explained below regarding the impact of HKAS 24 (Revised), and amendments to HKFRS 3, HKAS 1 and HKAS 27 included in Improvements to HKFRSs 2010, the adoption of the new and revised HKFRSs has had no significant financial effect on these financial statements.

The principal effects of adopting these HKFRSs are as follows:

## (a) HKAS 24 (Revised) Related Party Disclosures

HKAS 24 (Revised) clarifies and simplifies the definitions of related parties. The new definitions emphasise a symmetrical view of related party relationships and clarify the circumstances in which persons and key management personnel affect related party relationships of an entity. The revised standard also introduces an exemption from the general related party disclosure requirements for transactions with a government and entities that are controlled, jointly controlled or significantly influenced by the same government as the reporting entity. The accounting policy for related parties has been revised to reflect the changes in the definitions of related parties under the revised standard. The adoption of the revised standard did not have any impact on the financial position or performance of the Group.

- (b) Improvements to HKFRSs 2010 issued in May 2010 sets out amendments to a number of HKFRSs. There are separate transitional provisions for each standard. While the adoption of some of the amendments may result in changes in accounting policies, none of these amendments has had a significant financial impact on the financial position or performance of the Group. Details of the key amendments most applicable to the Group are as follows:
  - HKFRS 3 *Business Combinations*: The amendment clarifies that the amendments to HKFRS 7, HKAS 32 and HKAS 39 that eliminate the exemption for contingent consideration do not apply to contingent consideration that arose from business combinations whose acquisition dates precede the application of HKFRS 3 (as revised in 2008).

In addition, the amendment limits the scope of measurement choices for non-controlling interests. Only the components of non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the acquiree's net assets

in the event of liquidation are measured at either fair value or at the present ownership instruments' proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by another HKFRS.

The amendment also added explicit guidance to clarify the accounting treatment for non-replaced and voluntarily replaced share-based payment awards.

- HKAS 1 *Presentation of Financial Statements*: The amendment clarifies that an analysis of each component of other comprehensive income can be presented either in the statement of changes in equity or in the notes to the financial statements. The Group elects to present the analysis of each component of other comprehensive income in the statement of changes in equity.
- HKAS 27 *Consolidated and Separate Financial Statements*: The amendment clarifies that the consequential amendments from HKAS 27 (as revised in 2008) made to HKAS 21, HKAS 28 and HKAS 31 shall be applied prospectively for annual periods beginning on or after 1 July 2009 or earlier if HKAS 27 is applied earlier.

## 3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised HKFRSs, that have been issued but are not yet effective, in these financial statements.

Further information about those changes that are expected to affect the Group is as follows:

HKFRS 9 issued in November 2009 is the first part of phase 1 of a comprehensive project to entirely replace HKAS 39 *Financial Instruments: Recognition and Measurement*. This phase focuses on the classification and measurement of financial assets. Instead of classifying financial assets into four categories, an entity shall classify financial assets as subsequently measured at either amortised cost or fair value, on the basis of both the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. This aims to improve and simplify the approach for the classification and measurement of financial assets compared with the requirements of HKAS 39.

In November 2010, the HKICPA issued additions to HKFRS 9 to address financial liabilities (the "Additions") and incorporated in HKFRS 9 the current derecognition principles of financial instruments of HKAS 39. Most of the Additions were carried forward unchanged from HKAS 39, while changes were made to the measurement of financial liabilities designated at fair value through profit or loss using the fair value option ("FVO"). For these FVO liabilities, the amount of change in the fair value of a liability that is attributable to changes in credit risk must be presented in other comprehensive income ("OCI"). The remainder of the change in fair value is presented in profit or loss, unless presentation of the fair value change in respect of the liability's credit risk in OCI would create or enlarge an accounting mismatch in profit or loss. However, loan commitments and financial guarantee contracts which have been designated under the FVO are scoped out of the Additions.

HKAS 39 is aimed to be replaced by HKFRS 9 in its entirety. Before this entire replacement, the guidance in HKAS 39 on hedge accounting and impairment of financial assets continues to apply. The Group expects to adopt HKFRS 9 from 1 January 2015.

HKFRS 10 establishes a single control model that applies to all entities including special purpose entities or structured entities. It includes a new definition of control which is used to determine which entities are consolidated. The changes introduced by HKFRS 10 require management of the Group to exercise significant judgement to determine which entities are controlled, compared with the requirements in HKAS 27 and HK(SIC)-Int 12 *Consolidation — Special Purpose Entities*. HKFRS 10 replaces the portion of HKAS 27 *Consolidated and Separate Financial Statements* that addresses the accounting for consolidated financial statements. It also includes the issues raised in HK(SIC)-Int 12.

HKFRS 11 replaces HKAS 31 Interests in Joint Ventures and HK(SIC)-Int 13 Jointly Controlled Entities — Non-Monetary Contributions by Venturers. It describes the accounting for joint arrangements with joint control. It addresses only two forms of joint arrangements, i.e., joint operations and joint ventures, and removes the option to account for joint ventures using proportionate consolidation.

HKFRS 12 includes the disclosure requirements for subsidiaries, joint arrangements, associates and structured entities that are previously included in HKAS 27 *Consolidated and Separate Financial Statements*, HKAS 31 *Interests in Joint Ventures* and HKAS 28 *Investments in Associates*. It also introduces a number of new disclosure requirements for these entities. Consequential amendments were made to HKAS 27 and HKAS 28 as a result of the issuance of HKFRS 10, HKFRS 11 and HKFRS 12. The Group expects to adopt HKFRS 10, HKFRS 11, HKFRS 12, and the consequential amendments to HKAS 27 and HKAS 28 from 1 January 2013.

HKFRS 13 provides a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across HKFRSs. The standard does not change the circumstances in which the Group is required to use fair value, but provides guidance on how fair value should be applied where its use is already required or permitted under other HKFRSs. The Group expects to adopt HKFRS 13 prospectively from 1 January 2013.

Amendments to HKAS 1 change the grouping of items presented in OCI. Items that could be reclassified (or recycled) to profit or loss at a future point in time (for example, upon derecognition or settlement) would be presented separately from items which will never be reclassified. The Group expects to adopt the amendments from 1 January 2013.

HKAS 12 Amendments clarify the determination of deferred tax for investment property measured at fair value. The amendments introduce a rebuttable presumption that deferred tax on investment property measured at fair value should be determined on the basis that its carrying amount will be recovered through sale. Furthermore, the amendments incorporate the requirement previously in HK(SIC)-Int 21 *Income Taxes* — *Recovery of Revalued Non-Depreciable Assets* that deferred tax on non-depreciable assets, measured using the revaluation model in HKAS 16, should always be measured on a sale basis. The Group expects to adopt HKAS 12 Amendments from 1 January 2012.

HKAS 19 (2011) includes a number of amendments that range from fundamental changes to simple clarifications and re-wording. The revised standard introduces significant changes in the accounting for defined benefit pension plans including removing the choice to defer the recognition of actuarial gains and losses. Other changes include modifications to the timing of recognition for termination benefits, the classification of short-term employee benefits and disclosures of defined benefit plans. The Group expects to adopt HKAS 19 (2011) from 1 January 2013.

#### 4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has three reportable operating segments as follows:

- (a) The networks (communication system) segment includes wireless communications, wireline switch and access and optical and data communications.
- (b) The terminals segment engages in the manufacture and sale of mobile phone handsets and data card products.
- (c) The telecommunications software systems, services and other products segment represent the provision of telecommunications software systems such as operation support systems and the provision of fee-based services.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit, which is a measure of adjusted profit before tax. The adjusted profit before tax is measured consistently with the Group's profit before tax except that interest income, finance costs, research and development costs, impairment losses, dividend income, share of profits and losses of associates, fair value gains/(losses) from the Group's financial instruments as well as head office and corporate expenses are excluded from such measurement.

Segment assets exclude deferred tax assets, pledged deposits, cash and cash equivalents, investments in a jointly-controlled entity and associates, other receivables, other unallocated head office and corporate assets as these assets are managed on a group basis.

Segment liabilities exclude derivative financial instruments, interest-bearing bank borrowings, other payables, bonds cum warrants, tax payable, deferred tax liabilities, provision for retirement benefits and other unallocated head office and corporate liabilities as these liabilities are managed on a group basis.

The said profit distribution proposal is subject to the approval of the Company's shareholders at the forthcoming annual general meeting.

## **10. EARNINGS PER SHARE**

The basic earnings per share amount is computed by dividing the profit for the year attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares of 3,390,411,470 (2010: 3,323,155,724) in issue during the year, as adjusted to reflect the capitalisation issue during the year.

The calculation of the diluted earnings per share amount is based on the profit for the year attributable to ordinary equity holders of the parent. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the year, as used in the basic earnings per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise of all dilutive potential ordinary shares into ordinary shares.

The calculations of basic and diluted earnings per share are as follows:

|   | 2011      | 2010      |

Progress payment for telecommunications system contracts is normally made in accordance with the agreed payment schedule. The Group's trading terms with its major customers are mainly on credit, except for new customers, where payment in advance is normally required. The credit period is generally 90 days and is extendable up to one year depending on customers' creditworthiness except for certain overseas customers. The credit terms for major customers are reviewed regularly by senior management. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. In view of the aforementioned, there is no significant concentration of credit risk. An aged analysis of the trade and bills receivables as at the end of the reporting period, based on the invoice date and net of provision, is as follows:

|  | Group        |              | Company      |              |

| At 1 January                      | 2,182,947 | 1,854,947 | 1,709,965 | 1,459,189 |
| Impairment losses recognised      | 618,479   | 375,612   | 388,701   | 267,507   |
| Amount write off as uncollectible | (77,406)  | (14,972)  | (13,400)  | (489)     |
| Impairment losses reversed        | (41,942)  | (32,640)  | (5,755)   | (16,242)  |
| At 31 December                    | 2,682,078 | 2,182,947 | 2,079,511 | 1,709,965 |

Included in the above provision for impairment of trade and bills receivables is a provision for individually impaired trade receivables of RMB673,371,000 (2010: RMB616,067,000) with a carrying amount before provision of RMB673,371,000 (2010: RMB616,067,000). The individually impaired trade receivables relate to customers that were in financial difficulties and are not expected to be recovered. The Group does not hold any collateral or other credit enhancements over these balances. Trade receivables are non-interest-bearing.

An aged analysis of the trade and bills receivables that are not considered to be impaired is as follows:

|                               | Group      |            | Company    |            |
|-------------------------------|------------|------------|------------|------------|

|                               | RMB'000    | RMB'000    | RMB'000    | RMB'000    |
| Neither past due nor impaired | 5,746,119  | 3,839,776  | 9,241,251  | 4,573,317  |
| Less than one year past due   | 19,420,846 | 13,406,522 | 19,407,690 | 15,538,415 |
|                               | 25,166,965 | 17,246,298 | 28,648,941 | 20,111,732 |

Receivables that were neither past due nor impaired relate to a large number of diversified customers for whom there was no recent history of default.

Receivables that were past due but not impaired relate to a number of independent customers that have a good track record with the Group. Based on past experience, the directors of the Company are of the opinion that no provision for impairment is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable.

The balances due from subsidiaries, the controlling shareholder, associates and other related companies included in the above are as follows:

|                             | Group          |         | Company    |            |
