This preliminary results announcement has not been pre-audited by a certified public accountant. Regarding to the financial data related to the preliminary estimated results, there is no major disagreement between the Company and the accounting firm.

II. Reasons for change in results

The year-on-year growth in the Group's 2021 annual results was attributable mainly to the combined

effect of the following reasons:

(1) The Company reported a double-digit year-on-year growth of operating revenue in 2021, of which, year-on-year growth in operating revenue was reported for both the domestic market and the international market, as well as for carriers' networks, government and corporate business and consumer business.

(2) The recovery in gross profit margin for 2021.

(3) The estimated asset impairment loss in 2021 amounted to approximately RMB1.4 billion, of which, the asset impairment loss on a quarterly basis for the fourth quarter amounted to approximately RMB1.1 billion. The asset impairment loss reflected mainly inventory impairment provision made for prudence purposes in consistency with the policy of previous periods, as the Company stocked up critical raw materials in advance in view of tight global supply of chips and had relatively long turnover periods for stock materials and production.

III. Other information

The data of business results set out in the above represents the Company's estimates based on the information as of now. Finalised data shall be disclosed in detail in the 2021 Annual Report. Investors are asked to beware of investment risks.
