Configuration in UME

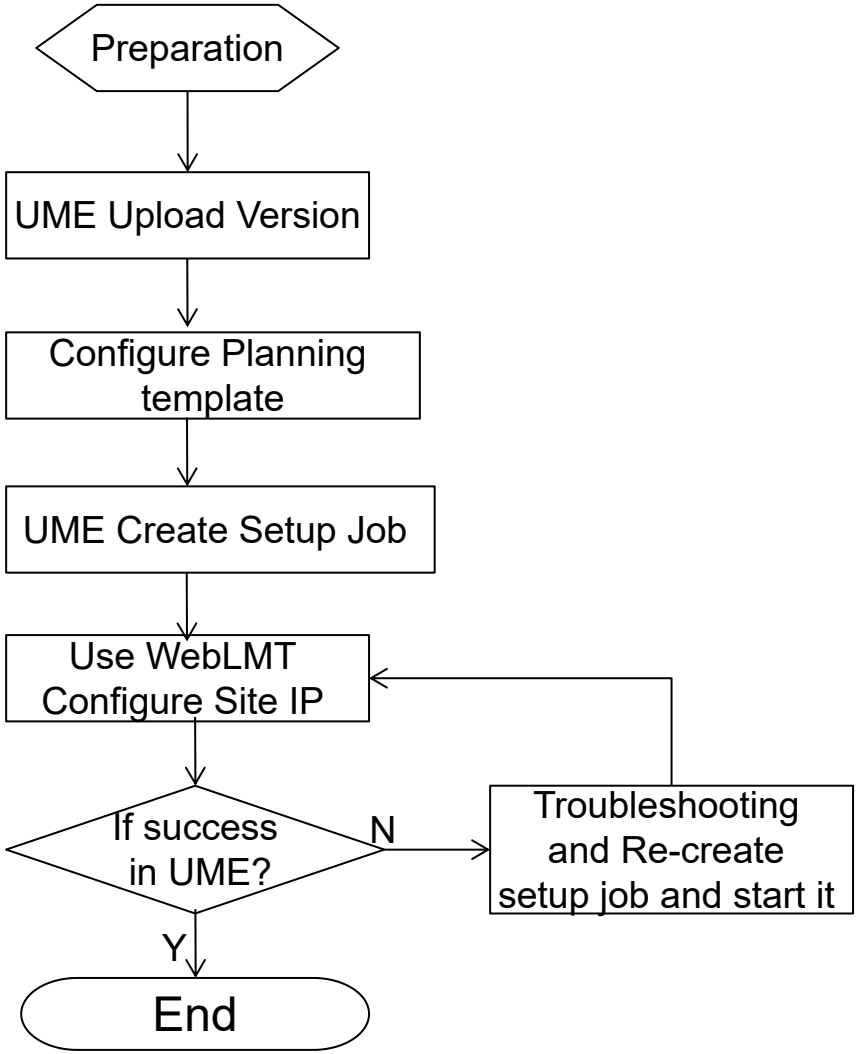

PC Configuration

- The following figure shows the connections between the ITBBU (V9200) and the debugging PC, and between the ITBBU (V9200) and the transport network.

Commissioning Flow

- Commissioning a Site by Using Temporary IP Addresses and the WebLMT
  - Applicable scene:
  - 1. The UME has been deployed
  - 2. The transport network has been ready
  - Advantages: simple operation at the front end
  - Disadvantages: need to go to the site, and need depends on UME and transport network.
